

DANIEL YU

ABOC | NCLE Optician | Optometric Technician

Phone: (415) 202-4850

Email: Danielyu415@gmail.com

Objective

To work side-by-side with optometrists, ophthalmologists, and opticians in order to acquire professional eye-care experience and knowledge to refine one's optical proficiency while simultaneously mentoring aspiring colleagues in optical techniques both already known and learned.

Experience

VISION TO LEARN – Optician

2025

- Oversee assigned mobile eye clinic operation
- Conduct pre-tests and vision screenings using a Welch Allyn Spot Check Vision Screener
- Take measurements, fit/adjust frames, and assist with frame selections to ensure fit and patient satisfaction
- Complete/prepare daily reports, meet deadlines, and make follow-up calls to patient caregivers for feedback
- Set-up the clinic, monitor and replenish inventory, and ensure all patient and administrative paperwork facilitates an efficient workflow each workday

JINS – ABOC Optician / Service Specialist

2016-2017 | 2018-2019 | 2025

- Edge lenses of various indexes and materials for both multi-focal and progressive eyewear
- Quality check lenses with lensometer and perform final adjustments for a perfect or near-perfect fit through the application of heat, nose pad alterations, pantoscopic tilt, and more
- Guide patients toward selecting the optimal frame and lens for both aesthetics and functionality
- Mentor fellow coworkers in patient interactions and lens edging as a service specialist and optician

ZENNI OPTICAL – eCommerce Merchandising Coordinator

2019 – 2020

- Assist in the launch of new products by working with creative, product, and ophthalmologic teams to attain photos, product details, and overall thoughts on the new merchandise
- Perform daily/weekly maintenance for website strategy execution by ensuring correct presentation and product integrity through site reviews
- Complete A/B testing on webpages such as Landing Pages, product landing pages, and product detail pages, and report findings to upper management
- Collaborate with production and IT teams to communicate system bugs and issues through IT request submissions and status follow-ups
- Pull monthly merch reports as well as screen, compile, and cross-check data and reports from a wide range of sources to present to a higher level of decision-making

PRESCHER OPTOMETRY – Optometric Technician

2017 – 2018

- Collect patient history and perform preliminary examinations such as autorefraction, NCT, and Optos retinal imaging
- Conduct contact lens training with patients on contact lens insertion/removal and contact lens care
- Handle general clerk duties such as payment collection, insurance verification, and inventory maintenance

- Schedule Appointments, document case histories, update/organize patient records, and answer patient inquiries in person or on the phone
